CENSUS FACTS:

- The census is a count that is conducted every 10 years of everyone living in the U.S.
- The next census is on April 1, 2010.
- It is **easy**. It takes less than 10 minutes to complete.
- It is **safe**. Federal law protects the personal information you share during the census.
- It is **important**. Census data are used to distribute Congressional seats to states, to make decisions about what community services to provide, and to distribute \$300 billion in federal funds to local, state and tribal governments each year.
